PRO TRAINING

Want to feel what it's like to fly? Try foil surfing. Coach **Reo Stevens** introduces this new obsession.

WHAT IS IT?
"Riding a surfboard with a hydrofoil, which is a wing that makes the board rise above the water."

BEST WAY TO GET STARTED?
"Get lessons on e-foiling, which is a motorized version. That allows beginners to get repetitions."

WHY THE HYPE?
"People get addicted. It's just fun. It feels like floating and you can do it in any body of water."

SUGGESTED

Vintage Style with a Modern Upgrade

This Marshall speaker brings listeners back to the days of Jimi Hendrix, with nostalgia built directly into its wooden frame. The Stanmore II Bluetooth features retro details such as a textured vinyl covering, brass plating and script, and, for the occasions you'd prefer not to tune the sound from your phone, analog rotary knobs that control the volume, bass, and treble. An upgraded interior provides the quality and digitization expected of today's audio systems.

Stanmore II Bluetooth speaker, \$380
